DEPARTMENT OF MATHEMATICS AND STATISTICS

SYLLABUS OF MATH 131 : FINITE MATHEMATICS

(Summer Semester: 093 (2009 – 2010): Saturday, July 03 – Saturday, August 28, 2010)

Dr. Raja Mohammad Latif. Office:5-327, Phone#(03)860-3720, E-mail: raja@kfupm.edu.sa.

Secion # 01; Class Meetings: S – U – M – T – W: 09:20 AM – 10:20 AM; Location:59 – 2001.

Office Hours: Saturday, Sunday, Monday, Tuesday, Wednesday: 12:10 P.M. – 01:00 P.M.

Textbook: *Introductory Mathematical Analysis for Business, Economics, and the life and Social Sciences*, by Ernest F. Haeussler, Jr. Richard S. Paul, & R. J. Wood, 12th Ed. (2008).

(Supplementary notes: *Mathematics with Applications*, by Lial & Hungerford, 7th Ed., 1999).

MATH 131 Finite Mathematics (3-0-3)

Description: Linear equations and inequalities. Systems of linear equations. Basic material on matrices. Elementary introduction to linear programming. Counting techniques. Permutations and combinations. Probability for finite sample space. Basic concepts in statistics. Topics in the mathematics of finance.

Prerequisite: One year preparatory mathematics or its equivalent

Home Work: The purpose of written homework in this course is to develop skills in understanding and communicating mathematics. It is not to give you busy work or drill. Don't think of your homework paper as a certificate proving that you have done the assignment. Think of it as an exercise in learning and in reporting what you have learned. There is a lot of truth in the statement if you can't explain it, you don't understand it. Communicate with the reader. Don't write to the instructor (who already knows how to do the problems), but explain your solutions to someone who needs help, perhaps a classmate who has been sick. Start at the beginning and be clear, logical and complete. The ultimate test of what you write is this: can someone learn from your paper? Easily? Remember, the reader will see only what you wrote, not what you meant to say. So it must all be there, and be accurate. Make your paper reader friendly. It is highly recommended to do all solved examples and exercises of the book.

Attendance: The university regulations on attendance say: students are expected to attend all classes. however, valid excuses are accepted for eligible reasons.

Academic Honesty: The principles of truth and honesty are fundamental in the academic work. Any type of academic dishonesty will not be forgiven. A cheating in a quiz will result in a zero grade on all quizzes. If a student tries to cheat in a major exam or a final exam, he may get an "F" in the course and he will be reported to the Dean of the College for further disciplinary action. Any attempt of cheating is considered as an act of academic dishonesty.

Important Notes: It is the student's responsibility to keep informed of any announcement, syllabus adjustment or policy changes made during scheduled classes.

*. Saturday, July 10, 2010: Last day for dropping courses(s) without permanent record.

** . Wednesday, July 28, 2010.: Last date for dropping course(s) with grade of "W" thru web at <http://regweb.kfupm.edu.sa>. ***. Wednesday, August 04, 2010.: Last date for withdrawal from all courses with grade of "W" thru web at <http://regweb.kfupm.edu.sa>.

****. Wednesday, August 18, 2010: Last date for withdrawal from all courses with grade of "WP/WF" thru the University Registrar Office.

Academic Integrity: All KFUPM policies regarding ethics apply to this course.

Exam1(Written):125Marks (Ch:1,3,7.1-7.3): Tuesday, July20, 2010 (Time & Location:TBA)

Exam2(MCQ):125Marks(Ch:5,6,7.4,7.8,8.1-2,10):Sunday, Aug.8,2010(Time-Location:TBA)

Class Work: 75Marks: Quizzes &/or Class Test(s):(10%).(Home Work & Attendance: 5 %).

Final Exam:175 Marks (**Comprehensive**). Wednesday, August 25, 2010 at 09:00 PM.
