**There will be no “make-ups” for exams.** *Unless a valid excuse is presented in advance, a missed exam or homework will receive the score 0. Of course, family vacations, commercial travel schedules, etc. are NOT acceptable excuses for missing scheduled classes.* Students must look at this syllabus carefully and **plan well ahead.**

**Homework:** A number of problems will be assign regularly. It is recommended that you try to work out these problems after the lecture. The problems in the exams will be similar to the homework problems. You are encouraged to come to my office hours or make an appointment to discuss any difficulties related to the course, including the homework problems. Remember that **“The best way to learn Mathematics is to do Mathematics.” Working as a group is recommended. However, each student needs to write his own solution.**

**Attendance:** KFUPM policy with regard to attendance will be enforced. Students are expected to attend all class meetings and are responsible for all of the material covered. Any changes in this syllabus or in the scheduling of exams, home works, etc. will be announced during class meetings. Students who miss a class meeting should copy a classmate’s notes for that meeting.

**Help:** Individuals’ questions regarding the course work should be directed to the lecturer, either immediately after class or during scheduled office hours.
