Text and Package:

The recommended textbook and software are:

(1) Ross, S. H. Introductory Statistics, Elsevier, 2005.

(2) **MINITAB**.

Course Objectives:

STAT201 introduction to statistics is intended to be the first course in statistics for students. The emphasis is on understanding how to use statistics to solve real-world problems. Upon completion of this course you should:

- Be familiar with the techniques of data analysis studied;
- Understand the basic elements of probability studied;
- Understand the assumptions, methods, and implications associated with various methods of statistical inference studied; and
- Be proficient in using **MINITAB** and be able to interpret the associated output.

Assessment

Assessment for this course will be based upon homework, class work, attendance, quizzes, lab, two major exams and final exam (comprehensive), with the following weighting:

Activities	Weight
Quizzes, homework and class work	10%
Exam 1 (Chapters 1, 2 & 3) <i>Wednesday September 16, 2015, 18:00 – 19:30 in B4 R125</i>	15%
Exam 2 (Chapters 4, 5, 6 & 7) <i>Wednesday October 28, 2015, 17:15 – 19:45 in B4 R125</i>	15%
Exam 3 (Chapters 8, 9 and 10) <i>Wednesday November 25, 2015, 17:00 – 18:30 in B4 R125</i>	15%
Lab reports and lab exam	10%
Final exam (comprehensive) <i>December 26, 2015, 7:00 PM</i>	35%

Outfits

Students will be required to carry a calculator with statistical functions. A binder will also be an asset to organize yourself with selected lecture notes, handouts, solutions to home works, exams etc.

Notices:

Any notice about the course will be communicated to the instructors through the emails, or though hard copies in pigeonhole. Students will be communicated by the announcements by the instructor.

Homework and Tutorials

Students are required to do the homework problems at home. The first hour of the lab would be devoted to solve the tutorial problems, and to guide how to solve other problems. The second hour of lab would be devoted to show students how to use the MINITAB statistical package and to use it to solve real life problems.
