

King Fahd University of Petroleum and Minerals

Department of Mathematics & Statistics

Math 102 Syllabus (MW), Term 191

Coordinator: Dr. Ibrahim Al-Rasasi

The Course Code and Name: Math 102, Calculus II

The Course Credit Hours: 4-0-4 (Three lectures and one recitation session per week.)

Textbook: Calculus: Early Transcendentals, 8th edition, by James Stewart, Cengage Learning, 2016.

The Course Objective: The objective of the course is to introduce students to the topics of definite & indefinite integrals and series and their applications.

The Course Content: Definite and indefinite integrals of functions of a single variable. Fundamental Theorem of Calculus. Techniques of integration. Applications of the definite integral to area, volume, arc length, and surface area. Improper integrals. Sequences and series: convergence tests, integral, comparison, ratio and root tests. Alternating series. Absolute and conditional convergence. Power series. Taylor and Maclaurin series.

The Course Prerequisite: Math 101

The Course Learning Outcomes:

Upon completion of this course, students should be able to

1. Use Riemann sums to estimate areas and approximate definite integrals.
2. State and apply the Fundamental Theorem of Calculus.
3. Evaluate Integrals using various techniques of integration.
4. Calculate the average value of a function, areas between curves, length of curves, volumes and surface areas of solids of revolutions.
5. Identify and evaluate improper integrals.
6. Compute limits of sequences.
7. Apply convergence tests to determine the convergence and/or the divergence of series.
8. Evaluate the sum of some selected types of series.
9. Find the interval of convergence and radius of convergence of a power series.
10. Express a function as a power series.

The Course Grading Policy:

	Date	Time	Place	Materials	Percentage
Exam I (MCQ)	Tue., Oct. 8, 2019	6:00- 7:30 pm	Building 54	5.1- 6.2	25% (75 pts)
Exam II (MCQ)	Tue., Nov. 12, 2019	5:30- 7:00 pm	Building 54	6.3- 7.8	25% (75 pts)
Final Exam (MCQ)	Sat., Dec. 28, 2019	12:30- 2:45 pm	TBA	Comprehensive	35% (105 pts)
Homework	The online homework is provided through BlackBoard.				5% (15 pts)
Class Work	<ul style="list-style-type: none">▪ It is based on quizzes, class tests, or other class activities determined by the instructor.▪ Any quiz or test should be of a written type and not of a multiple- choice type.▪ The average x (out of 30) of the class work of all sections taught by the same instructor should be in the interval [21, 22.5].				10% (30 pts)

The Course Passing Grade: A student must score at least 50% (150/300) to pass the course.

Upgrade Policy: The upgrade policy is applied when 3 points out of 300 are needed to get the next higher grade. A student will get an automatic upgrade if one or two points out of 300 are needed for the next letter grade. However, if three points out of 300 are needed, an upgrade is granted if he scores the needed (upgraded) letter grade in the Final Exam.

Exams:

Exam Questions: The questions of the exams are based on the examples, homework problems, and exercises in the textbook.

Cheating in Exams: Cheating or any attempt of cheating by use of illegal activities, techniques and forms of fraud will result in a grade of **F** in the course along with reporting the incident to the higher university administration. Cheating in exams includes (but is not limited to)

- Looking at the papers of other students
- Talking to other students
- Using mobiles or any other electronic devices

Missing an Exam:

Exam I or II: No make-up exam will be given under any circumstances. In case a student misses Exam I or Exam II for a legitimate reason (such as medical emergencies), his grade for this exam will be determined based on the existing formula which depends on his performance in the non-missed exam and in the final exam.

Final Exam: If a student misses the final exam for a legitimate reason (such as medical emergencies), he will be given a make-up final exam.

Attendance: Students are expected to attend all lecture and recitation classes.

- If a student misses a class, he is responsible for any announcement made in that class.
- A DN grade will be awarded to any student who accumulates
 - 6 unexcused absences in lecture and recitation classes.
 - 10 excused and unexcused absences in lecture and recitation classes.

The Usage of Mobiles in Class: Students are not allowed to use mobiles for any purpose during class time. Students who want to use electronic devices to take notes must take permission from their instructor. Violations of these rules will result in a penalty decided by your instructor.

Academic Integrity: All KFUPM policies regarding ethics apply to this course. See the Undergraduate Bulletin on the webpage of the Registrar.

The Pacing Schedule

Week	Date (2019)	Section	Topics
1	Sep. 1- 5	5.1 5.2 ⁽¹⁾	Areas and Distances The Definite Integral
2	Sep. 8- 12	5.2 5.3	Continued The Fundamental Theorem of Calculus
3	Sep. 15- 19	5.4 5.5	Indefinite Integrals and the Net Change Theorem The Substitution Rule
4	Sep. 22- 26	6.1 6.2	Areas between Curves Volumes
Monday, Sep. 23, 2019: The National Day Holiday			
5	Sep. 29- Oct. 3	6.3 6.5	Volumes by Cylindrical Shells Average Value of a Function
6	Oct. 6- 10	7.1 7.2	Integration by Parts Trigonometric Integrals
↑ Exam I: Tuesday, Oct. 8; 6:00-7:30 pm; Material: 5.1- 6.2; Building 54			
7	Oct. 13- 17	7.3 7.4	Trigonometric Substitution Integration of Rational Functions by Partial Fractions + Exercise 59
8	Oct. 20- 24	7.4 7.5	Continued Strategy for Integration
9	Oct. 27- 31	7.8 8.1	Improper Integrals (Up to end of Example 8) Arc Length
10	Nov. 3- 7	8.2 11.1	Area of a Surface of Revolution Sequences

11	Nov. 10- 14	11.2 11.3⁽²⁾	Series The Integral Test and Estimates of Sums
↑ Exam II: Tuesday, Nov. 12; 5:30- 7:00 pm; Material: 6.3- 7.8; Building 54			
12	Nov. 17- 21	11.4 11.5	The Comparison Tests Alternating Series
13	Nov. 24- 28	11.6 11.7	Absolute Conv. and the Ratio and Root Tests Strategy for Testing Series
14	Dec. 1- 5	11.8 11.9	Power Series Representation of Functions as Power Series
15	Dec. 8- 12	11.10⁽³⁾	Taylor and Maclaurin Series
16	Dec. 15.		A Normal Monday Class
Final Exam (Comprehensive, MCQ): Sat., Dec. 28; 12:30-2:45 pm; Place: TBA			
(1) Students must know Formulas 5, 6, and 7 on page 381.			
(2) The Remainder Estimates for the Integral Test, Example 5a and Example 6 are excluded.			
(3) Students must know the Maclaurin Series listed in Table 1 on page 768.			

Homework Assignments

Sec.	Suggested Homework Problems	Recitation Problems	CAS*
5.1	2, 7, 14, 21, 24	3, 23, 25	11
5.2	4, 6, 18, 22, 30, 33, 37, 47, 51, 58, 61, 63, 74	1, 9, 17, 23, 34, 40, 42, 48, 52, 57, 73	13, 31
5.3	2(a, b), 8, 16, 29, 43, 46, 56, 63, 70, 75, 83	13, 44, 48, 57, 74, 76	-
5.4	14, 18, 38, 46, 60	3, 13, 31, 40, 62	47
5.5	19, 23, 38, 39, 59, 62, 88, 91	28, 43, 69, 73, 87, 92	76
6.1	13, 17, 22, 23, 33	4, 12, 29, 35	30
6.2	4, 16, 17, 33, 42, 49, 54, 58	12, 34, 39, 56, 63	37
6.3	4, 12, 19, 22, 38, 45	11, 16, 26, 37, 47	36
6.5	6, 9, 14	4, 13	12
7.1	8, 12, 18, 30, 39, 42, 54, 62, 66	11, 21, 22, 33, 40, 61	44
7.2	2, 10, 27, 41, 50, 58, 64	15, 34, 43, 63	51
7.3	8, 16, 21, 24, 28, 41	11, 27, 30, 34, 43	36
7.4	6, 16, 20, 28, 36, 45, 49, 53, 62	15, 24, 30, 47, 54, 61	55
7.5	6, 22, 23, 32, 52, 67, 73	39, 71, 80, 84	-
7.8	8, 22, 27, 33, 40, 41, 57, 58	1, 2, 7, 30, 34, 42, 59	-
8.1	8, 14, 18, 41, 45	10, 12, 19	21
8.2	10, 11, 14, 15, 27	16, 28, 33, 35	24
11.1	14, 30, 42, 55, 59, 76	37, 44, 62, 74	58

11.2	15, 20, 25, 30, 41, 44, 52, 62, 67	22, 35, 46, 59, 75	12
11.3	6, 10, 20, 30, 46	8, 12, 19, 32	-
11.4	4, 10, 24, 32	6, 13, 27, 45	-
11.5	6, 10, 12, 23, 34	5, 15, 24, 32	22
11.6	5, 11, 18, 21, 28, 32, 39	4, 13, 16, 23, 30, 37, 40	-
11.7	5, 8, 17, 18, 20, 32, 38	14, 23, 24, 32	-
11.8	8, 17, 24, 28, 30	9, 20, 27, 29	-
11.9	4, 9, 14, 16, 28, 40(a, b)	8, 17, 32, 40(c)	-
11.10	12, 20, 33, 35, 41, 54, 63, 67, 73, 74	17, 32, 40, 42, 56, 68, 79	46
*: CAS problems require the use of a technology tool (e.g., a graphing calculator or a computer.) Students are encouraged to do these problems to enhance their understanding of the concepts involved.			

Tips on how to enhance your problem-solving skills:

1. Make sure you understand the concepts and techniques of each section.
2. Do all the homework assignments on time.
3. Try always first to solve the problems on your own before reading the solution or asking for help.
4. Practice (but not memorize) more problems than those in the above list.
5. If you find it difficult to solve a certain type of problems, you should try more problems of that type.
6. Try the recitation problems before coming to the recitation class.
7. Solve some of the review problems at the end of each chapter.
8. Try to make good use of the office hours of your instructor.
9. Last, but not least, consult your instructor whenever you feel you need help understanding a concept or solving a problem.
