DEPARTMENT OF MATHEMATICS & STATISTICS
DHAHRAN, SAUDI ARABIA

AS483: Actuarial Risk Theory and Credibility (201) 7am UTR

Course Description:

Distribution of aggregate claims associated with insurance including analysis of the risk due to variations in expected claim numbers and amounts. Frequency and severity distributions, individual and collective models, ruin theory, continuous-time compound Poisson surplus processes, reinsurance, dividend formulas, credibility models, and simulation. An introduction to empirical Bayes and statistical distributions used to model loss experience. Application of risk theory to the operation of insurance and takaful system and assessment of the credibility of data for ratemaking.

We shall often refer to the description of SOA Exam STAM at:

Instructor: Dr. Mohammad H. Omar **Office:** Bldg 5-rm 508 **Phone:** 2471 **E-mail:** omarmh@kfupm.edu.sa
Office Hours: UTR: 8:00am - 8:50am and UT: 10:00am-10:50am or by appointment.

Assessment

Assessment for this course will be based on attendance, homework, term paper report, two major exams and a comprehensive final exam, as in the following:

Activity	Weight
Classwork (Attendance, Timed Quiz, assignments)	15%
Mid-Term (Chapters 3, 4, 5, & 6) Tuesday (Oct 6 – week 6) 6.00 pm	15%
Online Assessment 1 (ch 8 & 9) Tuesday (Oct 19- wk 8) 7:00 pm	15%
Term Paper Report Sunday (Nov 8 – week 10)	15%
Online Assessment 2 (Term paper presentation) Tuesday (Nov 17- wk 12) 7:00 pm	15%
Final Exam (Comprehensive) (as posted by registrar)	25%

IMPORTANT NOTE on GRADES: There is no quota on the number of students who can get an A+ or F grade.

- ✓ **Attendance** on time is *very* important. Mostly, attendance will be checked within the *first five minutes* of the class. Entering the class after that, is considered as late (**2 lates= 1 Absence**) and randomly during class to ensure sustained presence.
- ✓ **More than 10 minutes late = Absence** (regardless of any excuse).
- ✓ Excessive unexcused absences will result in a grade of **DN** in accordance with University rules.

Letter grade	A+	A	B+	B	C+	C	D+	D	F	DN
Cut-off	90%	85%	80%	75%	67%	60%	55%	50%	<50%	≥ 9 absences

Academic Integrity: All KFUPM policies regarding **ethics** and **academic honesty** apply to this course.

General Notes:

- Students are required to carry **pens, note-taking equipment** and a **calculator** to **EVERY lecture and exams**. It is strongly recommended to keep a **binder** for class-notes.
- Students are also expected to bring the book, take notes and organize their solved questions in a **binder** for easy retrieval to help them in study and review for class, exams, etc
 - It is to the student's advantage to keep a binder for storing class notes, homework, and other graded assignments. Students who are **organized** will find it **easier** to find important materials when **studying for exams**.

- To successfully prepare for the SOA exams, students MUST **solve problems** regularly and with discipline. The selected assigned problems are specifically designed to prepare you for major and final exams. So, it is expected that you complete these problems **step-by-step** and **with comprehension**.
- If you happen to stumble upon a solution manual somewhere, remember 2 important points. (1) Due to publishing costs and deadlines, these solutions are brief and may have mistakes and (2) in your career as an actuary and your exams and quizzes in this class, you are expected to know every step to a problem and to know if a solution is incorrect. Thus, the best way to solve problem is without these brief solutions.
- Never round** your intermediate results to problems when doing your calculations. This will cause you to lose calculation accuracy. Your answers may then be different from the SOA exam key even when you use the right procedure.
- For every exam, so you need to bring with you **pens, pencils, a sharpener, an eraser**, and a **SOA approved calculator**.

Academic Integrity: All KFUPM policies regarding **ethics** and **academic honesty** apply to this course.

Syllabus (Tentative)

Week	Dates	Sections	Topic	Notes
1	Aug 30- Sep 3	Ch 3	Basic Distributional Quantities (Generating functions & sums of RV, Tails of distributions, Risk Measures)	
2	Sep. 6- 10	Ch 4	Characteristics of Actuarial Models	
3	Sep. 13- 17	Ch 5	Continuous Models	Declare your Term paper topic: Sun Sep 13
4	Sep. 20- 22	Ch 6	Discrete Distributions	The National Day Holiday Sept 23-24
5	Sep. 27- Oct. 1	Ch 8	Frequency & Severity with Coverage modifications	(2 wks): Midterm grade reports starts
6	Oct. 4- 8	Ch 9	Aggregate Loss Models	
Tuesday, Oct 6 – Midterm Exam (chapters 3, 4, 5, & 6)				
7	Oct. 11- 15	Ch 9	Aggregate Loss Models (cont.)	
8	Oct. 18- 22	Ch 10 & 14	Review of Mathematical Stats (new material only) Frequentist Estimation of Discrete Data	
9	Oct. 25- 29	Ch 17	Introduction and Limited Fluctuation Credibility	
Tuesday, Oct 19 – Online Assessment 1 (chap 8 & 9)				
10	Nov. 1- 5	Ch 15	Credibility Bayesian Estimation (Review)	
Sun Nov 8: Term Paper Report due to instructor				
11	Nov. 8- 12	Ch 18	Greatest Accuracy	
12	Nov. 15- 19	Ch 19	Empirical Bayes Credibility	
Tuesday, Nov 17 – Online Assessment 1 (Term paper presentation)				
13	Nov. 22- 26	Ch 20	Simulation (Note: Not in STAM but in practice)	
14	Nov. 29- Dec. 3	STAM review if time permits	Practice format from SOA STAM exam	
15	Dec. 6- 10	Review	Review	
16	Dec. 14	Normal Thursday Class		
"Comprehensive" Final Exam				

Student Learning Outcomes: (From the Society of Actuaries Exam STAM)

As a summary, the number of SOA STAM learning outcomes are distributed across the following KFUPM courses:

- (1) STAT302 (2) AS 475 (3) AS 483 (majority)

For 2020 STAM learning outcomes with SOA weights discussed in this course, check

<https://www.soa.org/globalassets/assets/files/edu/2020/2020-02-exam-stam-syllabi.pdf>

AS483 HOMEWORK	CHAPTER	QUESTIONS							
Homework 1	3	3.11,	3.20,	3.21, 3.29, 3.35					
	4	4.4, 4.7, 4.12							
Homework 2	5	5.3, 5.17, 5.19,			5.22,	5.26			
	6	6.1,	6.3,		6.5				
Homework 3	8	8.1,	8.6, 8.13,		8.14,	8.17, 8.26,		8.30	
Homework 4	9	9.1,	9.3,	9.6,	9.39,	9.48,	9.55,	9.63,	9.74
Homework 5	10	10.8,		10.11,			10.13		
Homework 6	17	17.1,				17.8			
	15	15.4, 15.23							
Homework 7	18	18.11, 18.15, 18.16							
	19	19.2, 19.6, 19.10
